Portfolio: about.me/teyteyey

Top Skills

- Specialist: Telecom Core 2G,3G,4G LTE Network
- Network design (LLD & HLD) integration & Interconnection Protocols: SS7, SIGTRAN, SCCP, SIP, SIP-I, S1MME, S1U, Gx, Gy, IuPS, Gi, Diameter, SCTP, VoLTE
- Roaming agreement, IR21, IREG and TADIG test
- SIM cards Designing and input data planning
- MSISDN number planning
- Telecom Cloud computing
- CISCO CCNA, CCNP
- leadership skills
- Managing conflict
- Project management PMP, Agile & Microsoft project 2019

Profile

- Graduated in Telecom NTTI, designated Telecom CTSME (**Certified Telecommunication Subject Matter Expert**) for Telcom CS & PS Core Network, expert, (2G,3G,4G LTE network) 23+ year experience.
- Special trained and work experience with Huawei products: CS and PS domain
- In 2002 I was not good enough Telecoms qualifications. When I joined the Telesom Mobile/Telcom Somalia as senior NOC engineer, sagely I realized I'd better to build a career for myself. I accelerated my professional development in the fields of Telecom and ICT through online learning, both Telecom books and online institute. **Prepared certificates:** Telecom scenarios (**CTNS:** Certified Telecommunications Network Specialist, **CWA:** Certified Wireless Analyst, **CVA:** Certified Voice over IP Analyst, **CTA:** Certified Telecommunications Analyst), **Python, SQL**, Routing and switching, **SD-WAN, Linux, Cloud datacenter infrastructure**). That enables me to become most comprehensive Telecom/ICT trained person with a **Certified Telecommunications Subject Matter Expert (CTSME)**

Experience

Dec 2017 - Aug 2025 #7 yrs 9 month In Amtel LTD

Job Position (Amtel LTD)

Was promoted: Zone1 Technical manager, October,2024

Job Position (Amtel LTD)

Was promoted: Amtel project team leader Feb,17,2018

Job Position (Amtel LTD)

Position: PS Core supervisor Dec, 2017

In Dec,12,2017 Joined Amtel LTD

Job Position (Somtel Somalia)

Was promoted: Site Development Manager June 2016-Nov, 2017

Job Position (Somtel Somalia)

Was promoted: Chief Core Network, Aug,2013 - Mar 2015

On Aug,2013 The Telcom /Olympic company was acquired by Dahabshiil group and give brand new name Somtel.

Job Position (Telcom Somalia)

Was promoted: Chief Core Network Nov 2012 - Aug 2013

Job Position (Telcom Somalia)

Was promoted: Core network engineer Sept 2010-Nov 2012

Job Position (Telesom Mobile / Telcom Somalia)

was promoted: Senior High Level Core Network - Roaming and Interconnect, December 2008 - December 2009

Job Position (Telesom Mobile / Telcom Somalia)

was promoted: Head of OMC-R Operation center of GSM Dept. 2006 - Nov 2008

In Sept,17,2002 Joined Telesom Mobile / Telcom Somalia

Training courses

**Location : Huawei
University Shenzhen China.**

2007-10-15 up to 2007-10-26

Completed training program for MSOFTX3000 product

2007-10-29 up to 2007-11-02

Completed training program for UMG8900 product

2007-11-05 up to 2007-11-16

Completed training program for HLR9820 product

**Location: Training Venue
Malaysian global training
center (MGTC), CYBERJAYA**

27th December 2017 – 16th January 2018

- EPC Principle Fundamental Training
- USN ATCA platform Operation and Maintenance Training (2G/3G/4G)
- UGW Routine Operation and Maintenance Training (2G/3G/4G)
- CG9812 Operation and Maintenance Training (ATCA)
- EPC Network Optimization Training
- EPC Performance Monitoring and Management Training

Education

1983-1986

Received Certificate of technical secondary school from SomaTex, polytechnic Technical Secondary School (Diploma)

Aug 28,2000-Sept 2000

Obtained "Computer operating systems introduction" from InfoTech Training Centre Nairobi Kenya

25 Sep2000_03 Nov2000

Received "A+ certificate" from Institute of advanced Technology (IAT) Nairobi Kenya

Feb 2001-Mar 2001

Received certificate of "Information Network Service" from Institute of advanced Technology (IAT) Nairobi Kenya

2003

On job training over the product of AirNet communications corporation vendor of the main equipment

Aug 2006

On job training over the product of the Huawei Technologies Co., LTD installed product, Msoftx3000, HLR9820, UMG8900, M2000 and Servers and client workstations

Awards

April 1, 2007

Received certificate of excellence of teaching performance of GSM over view training program, basic operation & maintenance, general overview of Huawei product MSOFTX3000, HLR8920, UMG8900

19th September 2007

Received Certificate of Appreciation in recognition of voluntary contribution and commitment

March 31, 2009

Received certificate of excellence of advance and NOC training program of telecoms, advance M2000 network monitoring & maintenance, overview of Huawei product MSOFTX3000, HLR8920, UMG8900

Between the years 2002 To 2023, the tasks I participated and the projects I accomplished include:

Accomplishment

At the time I was joining the Telecommunication sector, I was hired as head of Network monitoring and Core network assistance engineer, at that time company was running with one MSC with prepaid platform, one BSC, one macro BTS and 6 mini BTS that covered Mogadishu and Afgoi

Telsom Mobile /Telecom Somalia between Oct 2002 to Aug 2010, I participated below task projects

- | | |
|---|--|
| <ul style="list-style-type: none"> 2002 new expansion of 17 BTS's were installed 2004 added two additional new BSC3500 and 8BTS4000EX where installed successfully 2005 added 14 new BTS's and increasing the network coverage 2007 added additional 25 BTS's and One BSC increasing the network coverage and capacities. | <ul style="list-style-type: none"> 2008 Telcom Somalia commenced installing new GPRS equipment's 2009 Telcom Somalia has launching new feature technology of GPRS service in Somalia with value added services like the news, sports, bill etc. 2010 August increased network coverage adding another one BSC with 100 BTS's. |
|---|--|

Somtel Somalia between Oct 2013 to Sept 2017

- | | |
|---|---|
| <ul style="list-style-type: none"> On 2013 The Telcom /Olympic company was formally acquired by Dahabshill group and give brand new name Somtel. | Responsibilities: <ul style="list-style-type: none"> I was an important key role part of the migration and integration from the old system (2G-3G) to a new technology 2g-3g-4g. My job was to check the smooth migration of user data and subscriber information (MSISDN-IMS) |
|---|---|

AMTEL LTD between Feb 2018 to Feb 2023

On Feb,02,2018 , I managed Amtel new core deployment, as project team leader

Project background

- Install New complete Core Network deployment (Core CS, Core PS, 2G,3G, LTE, Microwave, RAN, BSC & Datacom)

Project Scope

- Completed all domain LLD, done all racks installation, Boards, internal & external cabling
- Core CS & PS elements (HSS 9860, MSoftX3000, UMG8900, USN9810 (ECU/EPU, UGW9811)
- Network monitoring (U2000 - IP (iManager U2000)
- BSC-RNC Wireless & (iManager U2000 MBB network Management system)
- Datacom element: NE40E-X8 Routers, NE40E-X3, IGW and two Firewalls (Eudemon1000E N and AntiDDoS8000)
- Install 110 New sites and building the sites location (55-SingleRAN and 55-BTS only)
- Central room for system (Data center) and Install 2 BITS clock

Responsibilities:

- Coordinate Amtel internal resources and third parties/vendors for the flawless execution of projects.
 - Ensure that all projects are delivered on-time and emerging project scopes/objectives, involving relevant stakeholders, ensure technical feasibility.
 - Developing detailed project work plan to track progress and ensuring resource availability and allocation.
 - Create and update Network design (LLD & HLD), use appropriate verification techniques to manage changes in project schedule.
 - Measure project performance and relationship using appropriate systems, tools and techniques.
 - Perform risk management to minimize project risks and Establish maintenance relationships with third parties/vendors.
- Create report and maintain comprehensive project documentation.

Projects Coordinated

- Amtel Dell EMS server cloud installation & integration
- 6D BSS integration with Dell servers & Huawei equipment

On February,04,2020 I accomplished Puntland new half core deployments with new 60 sites, as project team leader

Project background

- Install New complete Half Core deployment in Puntland (UMG8900,UGW9811, RAN, BSC & IP Datacom)

Project scope:

- UMG8900 and UGW9811, Datacom IP core (NE-8000_M8) Core1, Core2, IGW, Firewall and DDoS
- BSC and RNC Wireless (BSC6910 UMTS & BSC6910 GSM) and Build 60 sites.
- Central room power

Responsibilities:

- Coordinate internal resources and third parties/vendors for the flawless execution of projects.
- Ensure that all projects are delivered on-time and emerging project scopes/objectives, involving relevant stakeholders, ensure technical feasibility.
- Create and update Network design (LLD & HLD), Measure the project performance and performance risk management and create report and maintain comprehensive project documentation.

On February,20,2023, I accomplished Amtel Core/CBS/VAS Project, Cloude core deployments (DC1, DC2, PR and DR, with 30 new sites, as project team leader

Project background

Amtel and Huawei will deploy new core network (2 PCRF ,2 HSS,1 MGW,1 USN,1 MSC,1 CG) and swap CBS/VAS/VDS/EVS to achieve redundancy.

Project work of scope Core part

- Mogadishu is main and Garowe is backup
- 1) Mogadishu MSC: V200R011C20--->V200R012 ; 2) New build USN/CG/MSC in Garowe 3) Swape MGW in Mogadishu ,4) Swape 2 HSS, 5) Swape 2 PCRF, work mode: Master (Garowe)—Slave (Mogadishu) 6) New network elements are managed by MAE-CN, existing NEs are managed by U2020(reused)

Project work of scope CBS part

- Huawei CBS 1+1 /EVC1+0/VDS1+0
- Huawei VAS1+0(USSD/SMSC)
- Assumptions:
- The 3rd parties' systems need to follow the OOTB web service interface provided by Huawei CBS.
- UVC's scratch card encryption and decryption require customer support
- Information required for migration is provided by customer with data quality assurance

Responsibilities:

- Coordinate internal resources and third parties/vendors for the flawless execution of projects.
- Ensure that all projects are delivered on-time and emerging project scopes/objectives, involving relevant stakeholders, ensure technical feasibility.
- Create and update Network design (LLD & HLD) ,
- Directing the team and provide proper document guidance of the project.

On 2024, I accomplished Amtel New 5GC Project
UNC, UDG ,UNC-UAM & CloudCG Deployment, as project team leader

Project background

Swap current legacy ATCA USN, UGWs and CGs to cloudify and Mogadishu Core network ready for 5GC.

Project work of scope Garowe Core part

- Garowe replace Legacy ATCA UGW with UNC & UDG.

Project work of scope Mogadishu Core part

- Replace Legacy ATCA UGW with UNC & UDG.
- Replace Legacy ATCA USN with UNC-UAM

Responsibilities:

- Coordinate internal resources and third parties/vendors for the flawless execution of projects.
- Ensure that all projects are delivered on-time and emerging project scopes/objectives, involving relevant stakeholders, ensure technical feasibility.
- Create and update Network design (LLD & HLD) ,
- Directing the team and provide proper document guidance of the project.

I hereby declare that the above information
provided is true to my knowledge.
